

## 2025 ASSOCIATE MEMBER PROGRAM

PCA's Associate Member program is open to any company that offers products and/or services to US cement companies. Being an Associate Member not only gives you access to our member companies (and others), but it also gives you:

Networking Opportunities	Brand Visibility and Marketing Support
Access to Resources	Collaboration and Innovation
Advocacy and Representation	Discounts
Recognition and Awards	Community Involvement

Still not sure? Use this handy checklist of benefits – mark those items that you are interested in and see if it adds up to be a valuable investment for your company.

interested in and see in readuce up to see a valuable investment for year company.	$\sqrt{}$
Market Intelligence (worth over \$9,000)	
PCA's Labor and Energy Report, a \$1,900 value	
U.S. Cement & Construction Forecast, a \$1,150value	
Plant Information Summary (PDF only), a \$1,000 value	
U.S. Cement Industry Yearbook, a \$340 value	
All other reports (over 200 published every year) – receive a 25% discount	
Will consider nominal research requests from Associate Members	
Events (Exclusive Opportunities and Special Networking)	
Attendance (1 per company) PCA Annual Fly-In: April 1-2, 2025, in Washington, DC. This	
is ONLY open to PCA members.	
PCA Annual Fly-In Sponsorship Opportunity: April 1-2, 2025 in Washington, DC.	
Discount (approx. 18%) for all staff (Attendance badge) to the annual IEEE-IAS/PCA	
Cement Conference: May 4-8, 2025 in Birmingham, AL.	
Attend the exclusive PCA Associate Membership reception with cement industry	
leadership at the IEEE-IAS/PCA Cement Conference (May 7) in Birmingham, AL. ONLY available to PCA Associate Members.	
Attend PCA Council and Committee meetings (see below for more information). These meetings are ONLY available for PCA members.	
Special Recognition as a PCA Associate Member (as attendee and/or exhibitor) at the	
annual IEEE-IAS/PCA Cement Conference.	
With more events being added, we are happy to discuss attendance, presentation, and	
sponsorship opportunities with Associate Members.	
Participate in PCA Committees and Future Direction	
Participation in <i>Manufacturing Technical Committee</i> (develops, implements, and	
monitors PCA programs related to cement manufacture and process technology).	
Participation in <i>Product Standards &amp; Technology Committee</i> (identifies, develops, and	
monitors PCA programs relating to cement and concrete standards that allow	
manufacturers to optimize manufacturing technology, product performance, and	
environmental benefits).	

Members, committees such as Government Affairs, Sustainability, Industry Communications, Safety, etc., are also available for Associate Member participation. Associate Members are often first look for subject matter experts for our events and initiatives.  Discuss opportunities that align with our Roadmap to Carbon Neutrality and/or our 3 pathways: Alternative Fuels, Blended Cements, and CCUS.  Brand Visibility  Website listing on www.cement.org [tens of thousands of visitors monthly]  Social Media mentions (Associate Member Monday, support your social media campaigns, special mentions, and more) [45,000+ targeted subscribers]  Mentions in our monthly e-newsletter, The Cement Blend [read by cement industry leadership]  Spottight in a PCA Thought Leadership webinar. [Most recent, was Al Challenges and Opportunities with alcemy which had over 500 registrants]  Inclusion in ad in industry trade publication highlighting Associate Members  Coming soon: Associate Membership Directory in our members only portal.  Government Affairs  Consideration of support of your industry's efforts  Access to attend our annual Fly-In event in DC and join Hill meetings  Tracking of policy and regulatory matters related to the cement industry  Weekly Government Affairs E-Newsletter  Complimentary speaking engagement by Sean O'Neill (travel costs only)  Staff Access  Guidance from PCA (i.e., Research and Technology, Membership & Operations) staff and others on maximizing your IEEE-IAS/PCA Cement Conference engagement.  Research and Technology staff can review your (standards or other) proposal with the goal of making that proposal stronger and align with PCA's support.  Unique, hands-on opportunities to connect with our staff and others, to help shape your thought leadership messaging to the cement industry.  Value Add Opportunities  Eligible for the awards program for Associate Members (e.g., Manufacturing Performance Award).  Adding more ways to spotlight our members and give them opportunities to reach certain audiences.	While the above highlights the two committees that are of most interest to Associate

## **The Investment**

The annual cost of Associate Membership is \$12,000 and all employees would become a member (i.e., receive a discount at the cement conference). Please contact Brenna Hill at <a href="mailto:bhill@cement.org">bhill@cement.org</a> for more information.
