Cemex USA	Miami	Mario Diaz-Balart (R-26th)
Heidelberg Materials (Slag)	Cape Canaveral	Mike Haridopolos (R-8th)
QUIKRETE Cement ²	Tampa	Kat Cammack (R-3rd)
QUIKRETE Cement	Newberry	Kathy Castor (D-14th)
Titan America LLC	Medley	Mario Diaz-Balart (R-26th)

American Cement Association, Representing America's Cement Manufacturers

The cement and concrete industry contributes approximately **\$130 billion to the U.S. economy** and directly and indirectly employs 577,000 people. It operates in every state in the continental U.S.

Concrete, the second most-utilized material in the world after water, sees an annual usage of about 260 million cubic yards in the U.S. In plain terms, that's 600 times the amount of concrete in The Pentagon—annually.

Concrete is used to build highways, bridges, airport runways, water and sewage pipes, high-rise buildings, dams, homes, floors, sidewalks, and driveways. Concrete's durability makes it the most disaster-resilient construction material available.

The **American Cement Association** is the premier policy, research, education, and market intelligence organization serving America's cement industry. ACA supports sustainability, innovation, and safety while fostering continuous improvement in cement manufacturing, distribution, infrastructure, and economic growth.
